## MINOR SITE PLAN REVIEW PROCEDURES

Minor Site Plan Review is an administrative process that is held 9-15 days after the completed plans are received. The Minor Site Plan Review process is required for all accessory buildings, uses and structures listed under Section 23-570(c)(1) of the Zoning Ordinance.

Early in the process, consult the Minor Site Plan Application Checklist (attached) for a complete list of plan requirements and consult the Community Development Department staff for initial reaction and assistance. In addition, please notify utility companies regarding your proposed development.

A pre-submittal meeting is required prior to filing a Minor Site Plan for acceptance. It is recommended to schedule this meeting with a Plan Coordinator several days before the Tuesday, noon deadline.

5 folded sets of plans, a digital copy of the Site Plan Set in PDF or compatible format by electronic mail or on compact disc, one application each for Minor Site Plan, Erosion Control, Stormwater Utility and fees must be submitted to the Community Development Department. The Minor Site Plan fee and Erosion Control fee must be separate checks.

<u>Minor Site Plan Fees</u>	<u>Erosion Control Fees</u>
Parking lots under 10,000 square feet . . . \$75.00	Less than 1 acre . . . . . \$100.00
10,000+ square foot buildings or 20+ unit residential buildings . . . . . \$150.00	1 - 10 acres . . . . . \$150.00
All others . . . . . \$100.00	More than 10 acres . . . . . \$200.00
	Utilities . . . . . \$10.00

The Community Development Department, along with the Alderperson of the district and other City departments, will review the Minor Site Plan. The Site Plan Review Committee meets on a weekly basis and plans submitted by noon on Tuesday should be reviewed within 9-15 working days. The applicant will be notified as soon as possible of additional information/requirements to make the Minor Site Plan complete and in compliance with City codes for approval of the plan.

If a revised Minor Site Plan is required, at least five copies must be submitted. The Community Development Department will approve, approve with conditions, refer back for changes or deny the design of the project plan. Once the Minor Site Plan is approved, a signed copy and approved application are given to the applicant, the owner, the Building Inspector, the Erosion Control Inspector and also placed on file in the Community Development Department. Minor Site Plan approval is valid for one year. Please note: Minor Site Plan approval does not constitute approval of a building permit, paving or any required approvals of a curb cut from the Department of Public Works.

The Site Plan Review Committee is composed of:

Plan coordination	Jeff Towne	(920) 832-6476
Inspections review	Johannes Hendriks	(920) 832-6418
Public Works review	Sue Olson	(920) 832-6474
Erosion Control review	John Peters	(920) 832-5879
Fire Dept. review	Dan Dibbs	(920) 832-5829
Health review	Tim Mirkes	(920) 832-6429
Park & Rec. review	Mike Michlig	(920) 832-5905
Police Dept. review	Dennis Weyenberg	(920) 832-5501
Water Division review	Gary Klein	(920) 832-5940
Municipal Services review	Todd Nett	(920) 832-5580
Traffic Division review	Eric Lom	(920) 832-3958

## MINOR SITE PLAN CHECKLIST

This Minor Site Plan checklist has been prepared to provide the applicant with a clear understanding of what is needed to complete a Minor Site Plan Review. It is our hope that by providing a very detailed list of information to be shown on the Minor Site Plan Set and a specific format for its presentation, review time will be kept to a minimum and will prevent costly time delays caused by incomplete plans. Your courtesy in following the checklist carefully will ensure prompt review and approval at the earliest possible date.

### APPLICATION FORM AND MINOR SITE PLAN SET

Application forms are available from the Community Development Department and shall be filed 45 days prior to any request for permits. Those who may file are the property owner, a person having the lawful power of attorney, or a representative of the owner such as an architect, engineer, or other agent designated by the property owner. In no case will an application be accepted without an original signature of the property owner(s) or his/her agent. All blanks on the application must be filled in or an explanation given in a letter of intent.

When the applications (Minor Site Plan, Erosion Control and Stormwater Utility), Minor Site Plan set, documentation and other required information have been prepared, **please schedule an appointment with the Site Plan Coordinator for plan acceptance. DO NOT just drop off plans, as this will delay acceptance.** Plans will not be accepted for processing until staff has completed an initial review. An incomplete application or a Minor Site Plan set lacking complete information will not be accepted.

#### A COMPLETE APPLICATION INCLUDES:

- Completed Minor Site Plan Application and fee - check made payable to "City of Appleton"
- Completed Erosion Control Permit Application and fee (if required) - check made payable to "City of Appleton"
- A completed Stormwater Utility Service Application – This information is used for the quarterly storm sewer billing. Fill out this application accordingly.
- Calculations for sanitary sewer and water, if required.
- Calculations for storm sewer design, if required.
- **5 Minor Site Plan Sets including:**
  - Sheet 1 - Minor Site Plan Layout
  - Sheet 2 - Utilities, Grading & Drainage Plan, if required
  - Sheet 3 - Erosion Control Plan, if required
  - Any other plans (Architectural Elevations, Photometric Plans, Noise Evaluation, Floor Plans) or information deemed necessary by the Director of Community Development
- **A digital copy of the Site Plan Set in PDF or compatible format by electronic mail or on compact disc.**

Submit the completed application to:

City of Appleton Community Development Department  
100 North Appleton Street, Appleton, WI 54911

Please call (920) 832-6468 to schedule an appointment for a Pre-Submittal Review meeting.

## MINOR SITE PLAN PREPARATION AND PRESUBMITTAL MEETING CHECKLIST

Date \_\_\_\_\_ Name of Site Plan \_\_\_\_\_

Applicant \_\_\_\_\_ Phone \_\_\_\_\_

Reviewer \_\_\_\_\_

*Note: This document is used to assure a complete submittal has been prepared. This is not inclusive of all requirements needed to obtain Minor Site Plan approval. Substantial changes to the Minor Site Plan could affect other requirements. If the project requires a Building Permit, that approval shall be sought through the Building Inspections Division. Minor Site Plan approval does not negate the Building Code requirements. Amendments to the Minor Site Plan may be required to fulfill other Code requirements.*

Shown on plans

Not shown on plans

Appears is not applicable

Cannot determine if needed

A Site Plan Set consists of the following information:

\_\_\_\_\_ 5 complete sets, folded and drawn to scale on numbered sheets of a uniform size. Recommended sheet size is 11" x 17". A previously approved site plan may be used and submitted.

\_\_\_\_\_ One digital copy of the Site Plan Set in PDF or compatible format by electronic mail or on compact disc.

All minor site plans should include:

### Sheet 1. Title, Site Plan Layout & Streets Sheet

\_\_\_\_\_ a) Name of project, address, legal description of property, tax key number of each lot, description of proposed use and both existing and proposed zoning descriptions

\_\_\_\_\_ b) Name, address and phone number of the record property owner and site plan preparer (include fax number if available)

\_\_\_\_\_ c) North arrow, date of preparation, revision dates and scale

\_\_\_\_\_ d) Name(s) of adjacent or surrounding streets

\_\_\_\_\_ e) Recorded property lines and their dimensions

\_\_\_\_\_ f) Total land area in the development

\_\_\_\_\_ g) Existing and proposed buildings and structures accessory to the principal use, including:

\_\_\_\_ Use of each structure

\_\_\_\_ Dimensions

\_\_\_\_ Identification of the class of construction (per State Building Code)

\_\_\_\_ Location on the parcel

\_\_\_\_\_ h) Dimensions of existing and proposed yard setbacks of the buildings and structures

- \_\_\_\_\_ i) Dimensions of existing and proposed parking, loading and unloading areas, and sidewalks. Identify proposed and existing surface materials. *(See Section 23-172 of the Zoning Ordinance for Off-street parking and loading standards)*
- \_\_\_\_\_ j) Buildings that will be removed
- \_\_\_\_\_ k) Calculations for parking and loading requirements per §23-172(n), Off-street loading requirements
- \_\_\_\_\_ l) Existing and proposed driveways and parking lots including:
  - \_\_\_\_\_ Pavement markings to show traffic flow
  - \_\_\_\_\_ Parking stall sizes and layout
  - \_\_\_\_\_ Handicap stalls and ramps
  - \_\_\_\_\_ Loading zones
  - \_\_\_\_\_ Driveways widths and radii or flares on driveway aprons to public streets
- \_\_\_\_\_ m) Statement "Curb cut will be closed per City of Appleton standards" noted on the site plan if existing curb cuts are to be abandoned
- \_\_\_\_\_ n) Proposed sidewalks with grade elevations and handicap access at driveways
- \_\_\_\_\_ o) Location of snow storage areas located outside of setbacks, in required parking areas, landscaped areas and vision clearance triangles
- \_\_\_\_\_ p) Location and extent of all existing and proposed outdoor storage and outdoor display *(See Section 23-46 of the Zoning Ordinance for Outdoor storage and display standards)*
- \_\_\_\_\_ q) Show the location and detail of refuse containers and their enclosures *(See Section 23-47 of the Zoning Ordinance for Refuse container and dumpster enclosure standards)*
- \_\_\_\_\_ r) Location of all mechanical equipment and the type of screening provided
- \_\_\_\_\_ s) Fences or retaining walls, including:
  - \_\_\_\_\_ Locations
  - \_\_\_\_\_ Heights
  - \_\_\_\_\_ Elevations
  - \_\_\_\_\_ Materials
- \_\_\_\_\_ t) Location of on-site fire hydrants
- \_\_\_\_\_ u) Calculations for lot coverage percentage of impervious surface areas
- \_\_\_\_\_ v) Identification of the size of basement/below grade space or mark "no below grade space" on the site plan
- \_\_\_\_\_ w) 100-year flood plain, including
  - \_\_\_\_\_ Flood fringe
  - \_\_\_\_\_ Floodway
  - \_\_\_\_\_ Flood storage areas
- \_\_\_\_\_ x) Identification of streams, wetlands, channels, ditches and other watercourses on the site and on adjacent properties
- \_\_\_\_\_ y) Existing and proposed landscaping. Identify size and variety of existing and proposed landscaping including the preservation of existing trees on site. *(See Section 23-601 of the Zoning Ordinance for Landscaping and Screening Standards)*

- \_\_\_\_\_ z) The type of all surfaces, including
  - \_\_\_ Seeded grass
  - \_\_\_ Sod
  - \_\_\_ Type of mulch in planting beds
  - \_\_\_ Pavers
  - \_\_\_ Concrete and asphalt, including pavement thickness
  
- \_\_\_\_\_ aa) List of the types of roof, wall and all trim materials, colors and textures. Submit color samples and building material samples.
  
- \_\_\_\_\_ bb) Identification of all exterior lighting fixtures, either mounted on the building or freestanding light along with dispersion pattern, intensity of light and cut-off shielding that reflects light downward and in which the light source is not visible from adjacent properties. *(See Section 23-53 of the Zoning Ordinance for Outdoor lighting standards)*

**Sheet 2. Utilities, Grading & Drainage Plan**

- \_\_\_\_\_ a) Public right-of-way abutting a site plan project including accurate locations for existing and proposed facilities such as:
  - \_\_\_ Streets
  - \_\_\_ Curbs
  - \_\_\_ Sidewalks
  - \_\_\_ Sidewalk planters
  - \_\_\_ Street trees
  - \_\_\_ Utility poles
  - \_\_\_ Traffic signs and signals
  - \_\_\_ Median islands
  - \_\_\_ Project driveways
  - \_\_\_ Driveways on opposite street frontages
  - \_\_\_ Bus stops
  - \_\_\_ Other improvements

Elevations of sidewalks at property lines and elevations to indicate handicap accessibility shall be identified. The statement "Any existing sidewalk damaged during construction will be replaced as a part of this project" shall be noted on the site plan.

- \_\_\_\_\_ b) Identification of all existing and proposed overhead and underground private utility lines.
  
- \_\_\_\_\_ c) Calculations of drainage area for each catch basin. Indicate the size and slope of utility lines that will be tapped into in the adjacent streets.
  
- \_\_\_\_\_ d) Existing and proposed public and private easements for:
  - \_\_\_ Utility
  - \_\_\_ Drainage
  - \_\_\_ Sewer
  - \_\_\_ Parking
  - \_\_\_ Access and other purposes
  - \_\_\_ All easements on surrounding properties benefiting the subject property
 If existing utilities are to be abandoned, clearly state the method of abandonment.
  
- \_\_\_\_\_ e) Existing and proposed sanitary sewer mains and laterals including:
  - \_\_\_ Method of connection to public main
  - \_\_\_ Easements
  - \_\_\_ Size
  - \_\_\_ Materials
  - \_\_\_ Slope

- Manholes
- Rim elevation
- Invert elevations
- Clean outs
- Plumbing code calculations
- Number of drainage fixture units and public mains for connection

\_\_\_\_\_ f) Identification of all existing and proposed water mains and laterals, including:

- Easements
- Size
- Depth
- Materials
- Tracing wires
- Hydrants
- Method of connection valves
- Meters
- Plumbing code calculations
- Number of water supply fixture units
- Public mains for connection

\_\_\_\_\_ g) Identification of all existing and proposed storm sewer mains and laterals, including:

- Method of connection to public main
- Easements
- Size
- Materials
- Slope
- Manholes
- Inlets
- Catch basins
- Yard drains
- Rim elevations
- Invert elevations
- Area map for drainage to each catch basin
- Square feet draining to each catch basin
- Plumbing code calculations
- Roof drain discharges and/or connections
- Square feet of roof area
- Public systems for connection

\_\_\_\_\_ h) Identification of all existing and proposed surface run-off features, including:

- Easements
- Swales
- Open channels
- Type of surface
- Rip rap
- Flow path of runoff from upstream areas
- Flow path for runoff leaving the site including the public system adjacent to or for connection

\_\_\_\_\_ i) Identification of existing topography (by dashed lines) at one foot intervals and proposed grade elevations per City elevations (City datum) using contour lines and spot elevations and drainage flow arrows as needed to define drainage patterns for:

- Buildings
- Parking lots
- Catch basin inlets
- Rim and invert elevations

- \_\_\_ Drives
- \_\_\_ Surrounding open areas
- \_\_\_ All property within 50 feet

\_\_\_\_\_ j) List of all existing and proposed grades for first floor elevations

**Sheet 3. Erosion Control Plan**

Provide all erosion control information as required in Chapter 24 of the Appleton Municipal Code.

1. Erosion Control Application

Shown	Shown But Incomplete	Not Shown	N/A	Required Item
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Fee (disturbed < 1 ac - \$75, 1 to 9.9 ac - \$100, >10 acs. - \$150)
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Name, address, and signature of Owner or developer of site.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Name, address, and signature of applicant (if other than owner).
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Name and address of consulting professional and firm.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Start and end date for construction.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Description of construction activity.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Total area of site and estimated area of disturbance.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	General Contractor (if known).

2. Erosion Control Plan

a. Plan Statement and Narrative Portion of Plan as Required in Code Sec. 24-35 (a)(4)c-i, 24-35 (a)(6), and 24-35(b).

Shown	Shown But Incomplete	Not Shown	N/A	Required Item
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Intended sequence of major land disturbing activities with anticipated dates (e.g., clearing, grubbing, excavating, grading, utility street installation, stabilization, etc.)
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Estimate, including calculations, of pre and post runoff coefficients of site.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Description of existing surface and subsurface soils (USDA – NRCS Soil Survey).
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Depth to groundwater (USDA – NRCS Soil Survey).
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Limits of land disturbance shown on USGS 7.5 minute series topographic map (only for sites 10 or more acres in size).
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Name of immediate receiving water from 7.5 minute series USGS topographic map.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Description of practices used to divert flow away from exposed soils or limit runoff volume from site including schedule of implementation.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Description of all practices used to control erosion or trap sediment, including anticipated implementation schedule (tracking pads, inlet protection, ditch checks (check proper separation distance considering slope, soil type and flow velocity), channel stabilization, clean water diversions, overland flow BMPs, sediment traps/basins, stockpile management, permanent stabilization, waste management, etc.)
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<u>ALL</u> supporting calculations for structural BMPs to demonstrate that BMP designs meet standards. Include calculated dewatering times for sediment basins, etc.

Shown	Shown But Incomplete	Not Shown	N/A	Required Item
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Calculations showing 80% sediment reduction (required as soon as DNR offers and approves soil loss model for construction sites. In the interim, designing and installing practices per DNR technical standards is deemed as meeting the 80% reduction).
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Site dewatering provisions (correct dewatering BMPs).
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Provisions for cleaning up off-site sediment deposits and list how often.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Provisions to minimize airborne dust leaving site.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Provisions for disposal of construction and waste materials.

b. Site Map/Plan View Portion of Plan as Required in Code Sec. 24-35 (a)(5 and 7)

Shown	Shown But Incomplete	Not Shown	N/A	Required Item
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Scaled at 100 feet per inch or less and contour interval at two feet or less.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Existing topography, vegetation, drainage systems, and surface waters on and adjacent to the site (show enough of adjacent properties to show runoff patterns onto, through, and from the site).
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Locations and delineation of on-site and potentially impacted adjacent wetlands.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Existing and planned buildings, roads, and all utilities.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	100 year floodplain, flood fringe, floodways, and flood storage is identified.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Location of soil types (USDA – NRCS Soil Survey).
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Boundary of the project site.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Boundary of the disturbed area (phasing boundaries shown if applicable).
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Existing and planned locations where storm water is discharged from site (surface and subsurface).
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Stone tracking pads at all egress driveways.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Perimeter control measures (silt fencing, earthen berms, etc.).
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Storm drain inlet protection (on-site and off-site if needed).
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Ditch checks.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Stockpile locations and control measures.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Clean water diversions.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Sediment traps or sediment basins.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Velocity dissipation at outfalls.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Stabilization of steep slopes (erosion mat needed?).
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Stabilization of drainage ways (erosion mat needed?).
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Detail sheets of <u>all</u> BMP's as applicable (inlet protection, tracking pad, perimeter control, sediment basins or traps with all design parameters shown, ditch checks, etc.)
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Temporary and permanent soil stabilization practices (seed, mulch, etc.).
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Roof water downspout protection.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Planned final site conditions, including landscaping.

c. Stormwater Management Plan (Post Construction) as Required in Code Sec. 24-30 (i)

Completed	Incomplete	N/A	Required Item
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Submit a Long-Term Stormwater Management Acknowledgement form signed by the owner of the site. <b>This is only required for disturbed sites less than one acre.</b> This form simply acknowledges that the owner is aware of the stormwater requirements for the site per Wis. Adm. Code NR 216. Sites of one or more acres are subject to the Stormwater Management Standards and Planning Ordinance requirements in Article VI of Chapter 20 of the City of Appleton Municipal Code.

The Community Development Director may require additional information or may waive submission requirements as deemed necessary at the pre-submittal conference for thorough and efficient review.
