

City of Appleton – **Resolution #25-R-17**

December 20, 2017

*Submitted by: Alderperson Spears – District 12*

*Referred to: Organizational Meeting*

Whereas, Council has deemed that active interaction of social media should not be allowed during Committee meetings and Council meetings between Council and its citizens;

There is no way for a citizen watching a live stream to notify a Committee member that they cannot watch or hear the meeting;

Therefore be it resolved that a mechanism be put in place for the public to contact the City regarding the loss of communication.
