## Summary of Lot Line Adjustment Requirements and Process

The owner/applicant shall consult with the Community and Economic Development Department staff prior to submittal of an application for the approval of a lot line adjustment to review the process, Municipal Code regulations and fees.

*Use of a Lot Line Adjustment Application.* A Lot Line Adjustment is an adjustment or relocation of property line(s) between adjacent lots that does not result in the creation of additional lots, from what was originally platted or mapped. The Director of Community and Economic Development has the discretion of requiring a certified survey map if the lot line adjustment involves unplatted land and/or has a complicated metes and bounds description.

The owner/applicant shall submit the following information to the Community and Economic Development Department:

1. A completed application form and \$30.00 review fee.
2. One (1) copy of the plat of survey and a digital copy of the plat of survey file in AutoCAD or compatible form by electronic mail, or on compact disc.
3. Separate legal descriptions of each existing lot(s) included in the lot line adjustment.
4. Separate revised legal descriptions that accurately reflect the new legal descriptions of the proposed lots as they will exist after the lot line adjustment is recorded.

The lot line adjustment will be administratively reviewed and approved by City staff for compliance with all applicable local regulations including Chapters 4 and 23 of the Municipal Code, any official mapping ordinances, the Comprehensive Plan for the area and Chapter A-E7 of the Wisconsin Administrative Code.

The owner/applicant of a Lot Line Adjustment shall be responsible for the following:

1. Installation of new lot corners monumented in accordance Section 236.34(1)(b), Wisconsin State Statutes, except that newly placed monuments shall be at least 24 inches in length weighing not less than 1.13 lbs/lineal foot set.
2. Special assessments and taxes, which must be paid to the City of Appleton Finance Department prior to final approval of the Lot Line Adjustment application.
3. All recording fees.
4. Recording the deed or other appropriate instrument (including the plat of survey attached as an exhibit) with the County Register of Deeds within 12 months of the Community and Economic Development Department's written approval date.
5. Providing the Community and Economic Development Department with one recorded copy of the deed or instrument and the plat of survey exhibit. This will constitute final City approval of the lot line adjustment.
